PREFACE.

To enable the Stove dealers of the United States to fill orders for thousands of Stoves, with a very small stock, is the object of this book. For example, a dealer in Chicago is asked for a fire back and front grate for No. 8 Enterprise, made by the Bloomington Stove Co. He does not know what the repairs are like, but picks up key, turns to Enterprise, and reads: Same as 182 set, V. H. top; see key 182. He then turns to the key marked 182, and reads: Ariel, Sill Stove Works; Erie City, South Erie Iron Works; Good Will, Cleveland Co-Operative Stove Co.; Good Report, Cribben & Sexton; Etna B., Bradley & Co., etc., etc. He has on his floor the Stove called Good Report, by Cribben & Sexton. He takes out back and front grate and sells to customer for Enterprise, and replaces those by ones from factory in his own city. In this manner he has served his customer prompt, saved ordering from a distant factory, express charges, delays and mistakes. Hoping this book will be all to the dealers it is intended to, I remain

Yours truly,

J. ELLIOTT O'RORKE.
